

GM Mining Electrics Quality Policy

GM Mining Electrics is committed to supplying and servicing control systems and associated equipment to meet our customer's performance specifications and quality requirements.

GM Mining Electrics has developed, documented, is implementing and continually improving comprehensive systems and procedures to ensure that our clients' requirements are fully met and understood.

The *GM Mining Electrics* quality system is designed to follow and comply with the requirements of AS/NZS ISO 9001, with all *GM Mining Electrics* personnel fully aware of and involved in the effective operation of the system.

Through consistent review and improvement of processes, *GM Mining Electrics* is able to develop its services as required by the market, Managing Director and the goal of continuing to supply and service equipment of the highest reliability.

Greg Murphy – Managing Director
